The 2023 reimbursement rates are presented as a combined set of rates to highlight simplified cost accounting procedures. Reimbursement is based solely on a “meals times rates” calculation, without comparison to actual or budgeted costs.

Sponsors receive reimbursement that is determined by the number of reimbursable meals served, multiplied by the combined rates for food service operations and administration. However, the combined rate is based on separate operating and administrative rates of reimbursement, each of which is adjusted differently for inflation.
